These reforms seem the most urgent and generally useful. I am not unmindful of the need of others, but I have learned that to undertake too many things at once, especially when legislative co-operation is required, is apt to mean failure in all. Fairness, economy and intelligent idelity are the foundations of good government, and to attempt of improvements before securing these would be beginning at the wrong place.

Federal Reforms Needed.

"Efforts to continue reforms in the State will have a further effect this year. The need of reforms is still grenter in the Federal government, and it can be met in the election of Congressmen. The waste of public funds which to the extent of \$300-600,000, is openly confessed, is well worth looking after, especially now when the people, who have to make it up, are everywhere struggling to meet the cost of living. And neither economy nor watchful regard for the common welfare is possible in Washington while the reign of the favored goes on and the practical genius of our people finds such small expression of the favored goes on and the practical genius of our people finds such small expression. striking way that these have com-plete command of the Republican party as an organization. Brighton Beach Events Transferred to Empire City Track.

New York, June 22.—At a meeting to-night of the Jockey Club stewards, it was decided to transfer the racing dates of the Brighton Beach track to the Empire City track, at Yonkers. The change will give Yonkers twenty-six days of racing.

The recent announcement that the Brighton Beach Association would hold an automobile race on its track during July 15 and 16, in the midst of its allotted horse-racing dates, was the nest word the Jockey Club had received that the association would not carry out its program. Action by the Jockey Club was expected, and followed quickly.
